To the Property Owners at Fintry BC

Re: Proposed Acquisition of the Fintry Water System, Update December 2010

We wish to advise you that an agreement between ourselves and the Owner/Operator of Fintry Utilities for the transfer of the water system has not yet been reached. Until further notice, Fintry Utilities will continue to provide water service to your property.

Please note, this delay will not affect the capital cost estimate per property to join the Regional District. The new water system is being designed and constructed to include all Fintry properties, with the expectation that the Fintry water system will be inter-connected once the agreement is finalized.

To stay informed, or if you have any questions or concerns, please feel free to contact the undersigned:

by telephone at: (250) 469-6262

by email at: delphine.maja@cord.bc.ca

Or visit the Regional District website at www.regionaldistrict.com, goto Services/ Environmental/ Projects.

Yours truly,

Delphine Maja
