Dear Resident

Let's keep our cyclists safe!

To ensure the safety of cyclists, please place your carts back from the bike lane at the end of your driveway. Some residents have found that placing one cart on one side of their driveway and the other on the opposite side allows them to use their driveway and provides plenty of space for the trucks to have easy access to the carts.

Thank you for your cooperation.

Yours truly,

Peter Rotheisler, M.Sc., P.Ag.
Waste Reduction Supervisor
Regional Waste Reduction Office
