1. Introduction

Through its membership, the Environmental Advisory Commission (EAC) advises the Regional District of Central Okanagan (RDCO) Regional Board on environmental matters. The Commission advises and assists the Regional Board in a capacity that allows the opportunity for local residents to contribute to the stewardship of our natural environment.

The Environmental Advisory Commission functions as an Advisory Commission of the Regional Board.

2. Objectives

The primary objective of the EAC is to advise the Regional Board on the protection, enhancement, restoration, management and appreciation of our common natural heritage and to ensure that our communities are planned to provide for environmental sustainability and community health for present and future generations.

As directed by the Regional Board, the EAC may function as a working group to advise on specific delegations before the Regional Board.

3. Scope of Work

The EAC will provide advice to the Regional Board on matters relating to the natural environment including:

- The promotion, support and involvement in educational, biodiversity, and stewardship programs;
- Environmental and resource management policies and programs;
- Working with the Regional Board, at the Board’s request, on submissions related to environmental issues with other levels of government; and
- Other matters requested by the Regional Board; or matters that the EAC believes should be brought to the attention of the Regional Board.
The EAC will provide recommendations to the Regional Board on matters relating to the natural environment including:

- Further studies and professional reports required (including but not limited to geotechnical, environmental impact assessment, habitat or biological assessment, wildfire hazard assessment, storm water management and drainage plans, groundwater management assessments, and flood protection);
- Mitigation and enhancement work that could further mitigate fish, wildlife or environmental impacts; and
- Where appropriate, possible alternatives to the proposal.

For each application reviewed, the EAC will recommend one of the following options:

- Support the application, as presented;
- Support the application, with conditions;
