Attention: Community Calendar & Events PSA Coordinator

Please consider the following PSA for use in your Community Calendar, Meetings or Events areas.

Local Access Only to Mill Creek Regional Park

A large construction project along Spencer Road in the Ellison area means local access only into [Mill Creek Regional Park](#).

With construction of the Mill Creek Drainage Improvement project slated to start Tuesday, February 19th (weather permitting) lasting until approximately mid-April, the 15.3-hectare park is accessible only to residents of two adjacent strata subdivisions. The Spencer Road main park access will be closed and there is no on-street parking available on Spencer Road during construction.

The Regional District apologizes for any inconvenience and encourages residents to visit any of the 25 other regional parks that are open. You can find information about regional parks by visiting www.regionaldistrict.com/pickapark.

For more information about regional parks, activities and events contact the EECO at 250-469-6140, email eeeco@cord.bc.ca or drop into the Centre at 2363A Springfield Road in Mission Creek Regional Park.
